Dear Interested Party:

**RE: City of Spokane Shoreline Master Program**

On February 1, 2010, the Department of Ecology approved, with required changes, the City of Spokane's (City) Shoreline Master Program (SMP) comprehensive update. The comprehensive update revises the existing SMP, including the goals, policies, regulations, shoreline environment designations, and administrative procedures and definitions.

During the formal review process, Ecology conducted a public comment period, including a public hearing. Ecology determined that some changes are required for the SMP to be consistent with the Shoreline Management Act (RCW 90.58) and the SMP Guidelines (WAC 173-26).

To review Ecology's documents related to the City of Spokane's SMP, please check Ecology's website at <http://www.ecy.wa.gov/programs/sea/sma/download/cityofspokane/index.html> where you will find the following documents:

- Director's approval letter
- Attachment A – Findings and conclusions
- Attachment B – Required changes
- Attachment C – Recommended changes

In order for City of Spokane's SMP to go into effect, the City must send Ecology a written notice agreeing to the required changes. The effective date of the SMP will be the date that Ecology receives this notice from the City of Spokane. If the City does not agree with the required changes, the City may submit an alternative proposal for Ecology review.

Interested Parties
